# Manikandan k

Full Stack Developer

## CAREER PROFILE

As a Graduate with a Bachelor's degree in Computer Science, I am eager to secure a position as a Full Stack Developer. My goal is to leverage my skills in both front-end and back-end development to kickstart my career. I aim to achieve proficiency in a variety of programming languages and frameworks, applying the knowledge gained through my coursework to contribute to innovative projects. I am enthusiastic about continually learning and growing in a professional environment that development and encourages continuous learning.

## TECHNOLOGIES SKILLS

- Front-end : HTML, CSS, JAVASCRIPT
- Back-end : PHP, JAVASCRIPT
- Frameworks : Bootstrap, React JS, Tailwind CSS
- Database Technologies : MySQL
- Version Control: GitHub, Git
- Code Editors: Visual Studio Code, Notepad
- Others : Email marketing, Typing, Ms Word

## PROJECTS

### FROM VALIDATION

TECHNOLOGIES USED : HTML, CSS, JAVASCRIPT, PHP, MYSQL

[ MARCH, 2024 ]

DESCRIPTION: This Form validation application facilitates user registration and login using PHP and MySQL for data management. Users provide their name, Gmail address, and password, with validations to ensure correct email format and secure passwords. The registration process includes checks for duplicate users and uses password hashing for secure storage. For login, user credentials are authenticated against the stored data. The project emphasizes data security and features a user-friendly interface.

### REAL TIME WEATHER APP

TECHNOLOGIES USED : HTML/CSS, JAVASCRIPT, BOOTSTRAP

[ MAY, 2024 ]

KEY POINTS : Real-time updates, Location-based forecasts, 5 Day Forecast, Humidity, Pressure, Feels Like.

DESCRIPTION: Develop a real-time weather app that provides instant, accurate weather updates. Features include location-based forecasts, interactive radar maps, and severe weather alerts. The app will offer a user-friendly interface with customizable notifications and data visualization.

## EXPERIENCES

[Github Profile](#)

- Developed and deployed dynamic web applications using Html, Css, JavaScript, Php, Bootstrap, React js.
- Designed and managed databases with MYSQL, optimizing data storage and retrieval.
- Integrated third-party APIs and services to enhance application functionality and user experience.
- Collaborated with cross-functional on Freelancer projects, ensuring timely delivery and client satisfaction.
- Implemented responsive design principles to ensure compatibility across various devices and browsers.
- Implemented version control using Git with VS Code to manage code changes and maintain project history.

## CERTIFICATE

Proficient in Microsoft & Oracle technologies; Completed an Advanced offline Full-Stack Development course ( Kaashiv InfoTech in Chennai 2023 ).

## LANGUAGES

ENGLISH, TAMIL
